Hello:

This is Dan Miller with IPC Instant Cash, and I want to personally thank you for taking the time to download this report about our program.

As you are about to see, no other program can even come close to the IPC Instant Cash program.

The bottom line is this; our program has been designed with one specific result in mind. To build you an income fast online that will only continue to grow.

In this report we are going to show you several reasons why real people just like you are able to succeed with our program. Even people that have no experience online at all. Even people that are beginners can succeed with IPC Instant Cash because our system is proven to produce actual results every single time.

Unlike other programs, you are never left hanging with IPC Instant Cash. With our program you are taken step by step on exactly what to do to get your business online so you can start receiving payments as fast as possible.

Our training area is written in step by step format that anyone can follow along with. We also have audio training and video training with our program allowing you to plug-in to the IPC Instant Cash system immediately. And if you should need assistance beyond that, you can always pick up the phone and call for additional support.

IPC Instant Cash Is A Complete System

To begin with, you are given a complete system with the IPC Instant Cash program right from the start that almost guarantees your success with our program.

You are setup immediately with your own online business that is proven to pull in sale after sale. There are three areas involved with our program that allow this to happen.

First:

With IPC Instant Cash we provide you with a complete online business that offers a product of value, over \$1,000.00 worth of software including resale rights.

Second:

With IPC Instant Cash we provide you with full training and support on how to setup and operate your online business to produce sales consistently.

Third:

With IPC Instant Cash we provide you with a compensation plan that is unmatched by any other program allowing your income to grow week after week with residual income.

It is for these three reasons why our program is so successful, and why people just like you are able to increase their income while only working in their spare time.

A Complete Online Business

When you join IPC Instant Cash, you are actually purchasing over \$1,000.00 worth of software that includes resale rights for the price of just \$97.00 through our program.

Since you will now have the full resale right to this software, you can choose to sell the software individually if you wish online or as a complete package with IPC Instant Cash.

If you choose to sell the software as a complete package through our program, you are provided with everything you need to have your business up and working within the same day! Your website is created immediately with our program, and you are shown in detail how to set everything up in step by step format.

One of the main comments we get from individuals is that they do not know anything about software.

The truth is, you do not need to know a thing about software to be successful in this business.

The main thing to focus on is the opportunity that is available to you. For every sale your website receives, you are paid \$60.00 directly into your account. And with our unmatched compensation plan, you will also receive overrides which will only allow your income to grow on a weekly basis.

The best part of this business is how quickly it goes into effect once you do join IPC Instant Cash. Your business is online instantly, and setup only takes a few minutes allowing you to receive cash deposits directly into your account within the next 24 hours.

This means you can be receiving actual cash you can touch by tomorrow with our program.

You are provided a valued product to sell with our program and a powerful website which is 98% automated allowing you to generate cash 24 hours a day 7 days a week.

Your website, which is included with the IPC Instant Cash program, is professionally produced and converts sale after sale as you will soon see.

Our business model is proven and allows you to instantly plug-in to a successful business that is virtually run on autopilot.

An Advanced Training System

The IPC Instant Cash training area, which you will have immediate access to, is one of the most advanced training systems online today.

When you first join IPC, you are shown in detail exactly how to setup your business online which can be done in just an hour or two even if you have never done anything like this before. Once you have your Instant Cash business setup, you are then shown exactly how to promote your business online to start producing a real income where your payments are received directly into your account.

Now one of the biggest reasons why people succeed with our program is because of the methods and techniques that we teach for promoting and marketing your IPC Instant Cash business.

Unlike other programs, we take our time to teach and show you what exactly works and what does not with our program.

Even if you have tried to promote or market online and have failed in the past, it simply doesn't matter. Chances are you were just taught completely wrong and that is why you weren't able to achieve the results you wanted in the past.

Marketing With A Zero Budget

One of the biggest factors with our training area is that we teach you how to pull in substantial results even if you have a "ZERO" budget and cannot afford paid advertising.

Our training area teaches you several no cost methods for marketing your Instant Cash website that you can put into effect immediately with our program. No cost methods that produce real traffic to your website. No cost methods that will actually create sales and put deposits directly into your account.

One of the biggest statements that I hear when talking to people involved with other programs, is they will constantly say that free advertising doesn't work. The truth is that free advertising does work when you are shown how to use it correctly. It's just like anything else in life.

For instance: If you were given a television remote with the wrong instructions on how to use it and could not get it to work, does that mean the remote doesn't work? Of course not! The fact is the remote works perfectly and you were just shown the wrong way on how to use it.

The same goes with free advertising. If you are shown the wrong way on how to market online using no cost methods, chances are you are not going to get the results that you need. But now what happens when you are shown the right way to use these no cost methods? You are now able to pull in the results that will allow your business to grow.

With IPC Instant Cash it doesn't matter if you have a zero budget for advertising and promoting because with the no cost methods and techniques that are taught to you in our training area you are still able to produce substantial results.

Saving Big When Using Paid Advertising

One of the other problems you will always run into with other programs is that they will stress paid advertising methods with no guidance at all. This is also why many people who are trying to better their financial situation online will end up losing money.

The same holds true when marketing online using paid methods and techniques. If you are taught wrong on how to use them, they will end up costing you more than you make every single time.

In our training area we break down paid advertising methods and techniques and show you exactly why so many people end up making mistakes with this type of marketing. We show how to use these methods correctly which will not only produce the results you are looking for, while at the same time only spending a fraction of the cost that others pay.

Why Our Training Makes The Difference

Unlike other programs, we have focused the majority of our attention to actually teaching people on how to succeed online.

The first thing you will notice with the IPC Instant Cash training area once you join our program is that it has been designed specifically to produce results.

How many times have you gotten a program online where once you have purchased the program you are totally lost with absolutely no guidance or help? We see this in a lot of programs online - and when you ask them for support or assistance, many times your questions are never answered.

This is one of the main reasons why we developed IPC Instant Cash. A program that was designed to let anyone succeed online, where you do get the support when assistance is needed. A program that does allow you to build your income quickly, where your income will only continue to grow.

In our training area with IPC Instant Cash you are provided with detailed step by step training that anyone can follow. We also have audio training allowing you to listen as you go through our training area. Over 5 hours of video training that shows you exactly what to do step by step. And if you ever need assistance or help, you can always pick up the phone and call someone.

Over 5 Hours Of Video Training With Our Program!

It is because of our in depth training why people just like you are succeeding instantly online with our program.

Compensation That Allows Your Income To Grow

Another key reason why people succeed with IPC Instant Cash is the design of our compensation plan that we have built into our program. It is truly unmatched in the industry.

To show you the real power of our compensation plan, I want take just a few minutes to compare a few things first.

With many online programs, you are normally given a compensation plan where you receive a small commission for every sale you generate with the program. One of the main problems with many of these programs though is you will also have to wait 30 or 60 days to receive your actual money you have earned. That doesn't really help when you're in a situation where you cannot wait that long to receive your funds.

Let's not forget the fact that these types of programs actually do not allow your income to grow either. This means if you stop your marketing efforts for that program, your income also stops.

This is what many people are used to online.

Now there are other programs online that do provide a compensation plan where you also receive residual income within their program. What you will usually find with these programs is that they involve monthly fees with their program or they are designed in a traditional MLM style format where you need to build a massive downline before your income really starts to grow.

Personally, I am not a big fan of MLM marketing because it seems that almost all of your work only makes money for the people sitting at the top and there is not a level playing field for beginners.

Another popular compensation that many people have also heard about is the 2UP compensation plan. Although it may sound great at first, there are still a few glitches in this type

of compensation plan also. With many 2UP compensation plans, you have to qualify first before you can receive any commissions.

The normal in the industry with the 2UP plan is you pass up your first 2 sales to your sponsor. Once you pass up your first 2 sales you are then qualified, which means you can now start receiving payments in the program. What most people do not realize is that your first 2 sales are usually the toughest ones to get, especially when you are trying to sell a high ticket item. And let's not forget that many high ticket items also have monthly membership fees associated with them too.

When you look at all of these compensation plans, all of them have their good points and their bad points within them.

It is for this reason that we have created a compensation for the IPC Instant Cash program that is the first of its kind. A compensation plan that is also unmatched in the industry.

Designing A Powerful Compensation Plan

The design of our compensation plan was very simple to create. Take all the good points from every compensation plan currently online, and then leave out all the bad points associated with them.

Then we created our own list to design the IPC Instant Cash compensation plan. The key ingredients included:

- Create a high commission rate for the program
- Allowing instant payments directly to your account
- A compensation plan with no qualifying at all
- Allow a big income without a massive downline
- A built-in residual income with no monthly fees
- Allowing you to get paid from your very first sale
- Make the program affordable for everyone

Many people we talked with said there was no way this could be done. Well, we regret to inform them that they were wrong.

This compensation plan will be one of the major keys to your success with our program, and is the first of its kind.

The Staggered 3UP Compensation Plan

This is one of the most advanced compensation plans ever created and it was designed with only one thought in mind - To allow your income to grow week after week with our program.

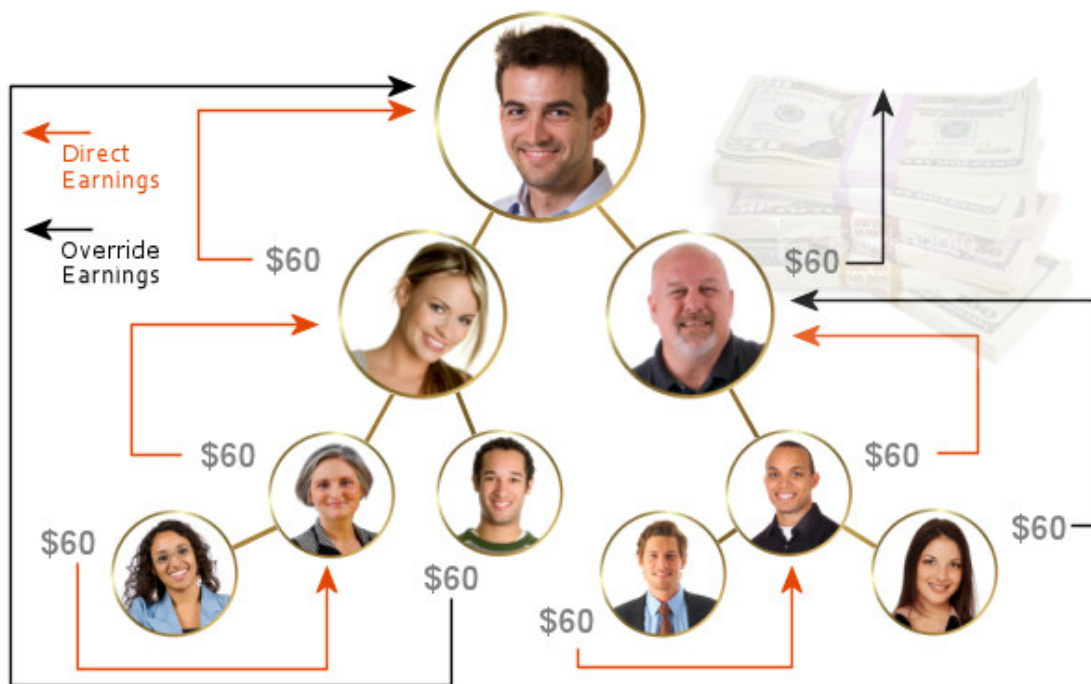

With our compensation plan, you are able to start earning an income immediately with our program and there is no qualifying involved at all.

Now here is how the Staggered 3UP Plan works. With our program you pass up your 2nd, 4th and 6th sale to your sponsor, who is the person that brought you into the IPC Instant Cash program.

Now, not including your 3 pass up sales - you are paid a \$60.00 commission directly into your account for every sale that is generated from your IPC Instant Cash Website.

Here is where the IPC Instant Cash compensation plan now kicks into overdrive.

Now every person your website has made a sale to, not including your 3 pass up sales, now also has to pass up their 2nd, 4th and 6th sale to you.

This may not seem like much, but let me show you exactly how powerful this really is.

Let's say you produce 15 sales within your first month of the program. You would pass up your 2nd, 4th and 6th sale leaving 12 sales directly paid to you.

Now each of these 12 individuals will also pass up their 2nd, 4th and 6th sale to you, totaling another 36 sales in overrides. But it doesn't stop there either, it just continues to grow.

Now these 36 individuals will also pass up their 2nd, 4th and 6th sale to you also, totaling another 108 sales in overrides and it only continues to grow week after week.

Do you realize how much income this is? Let's take a second to add it all up.

Out of your 15 sales, you were paid directly for 12 of them	12 x \$60.00	\$ 720.00
For your first wave of overrides, you received 36 sales	36 x \$60.00	\$2,160.00
For your second wave of overrides, you received 108 sales	108 x \$60.00	<u>\$6,480.00</u>
		<u>\$9,360.00</u>

Now the other thing you need to realize is that your overrides with the IPC Instant Cash program will continue to grow week after week giving you a residual income without having any monthly fees involved with our program.

The IPC Instant Cash compensation plan will allow your income to grow faster than any other program online - PERIOD!

If you need to, take a piece of paper and a pen and start doing some simple math to figure out where you could financially be with our program within the next 30 days. Within the next 60 days. 4 months from now.

Now take this into consideration. What would happen if you stopped promoting the Instant Cash program after your first month? It wouldn't matter; your income will still continue to grow.

Did you get that?

Even if you stopped everything and did nothing else after your first month, your income would still continue to grow!

Now compare us to any program online that you want to, and then take a look at the total cost of our program - JUST \$97.00!

This is exactly why we truly have the most powerful and complete money making system online that allows anyone to build a real income in their spare time.

- You're provided with over \$1,000.00 worth of valued software that includes full resale rights!
- You're provided your website instantly with our program that generates sales for you 24 hours a day, 7 days a week!
- You're provided one of the most advanced training areas online today along with full support when you need assistance!
- You're provided an income that will only continue to grow week after week!

The IPC Instant Cash program is a powerful and proven system. In fact that is exactly why I have put up a \$5,000.00 Cash Reward right on our website for anyone that can prove that this system does not work. We are the first program online to ever make such a claim and we can for one simple reason - Our Program Works!

Many people will make a substantial income with IPC Instant Cash, and you have the chance to be one of them.

The simple question is this - Where do you want to be financially 30, 60 or even 90 days from now.

I look forward to helping you build your income with IPC Instant Cash, and to watching you succeed online.

Sincerely,
Dan Miller
